Activity Guide

Look

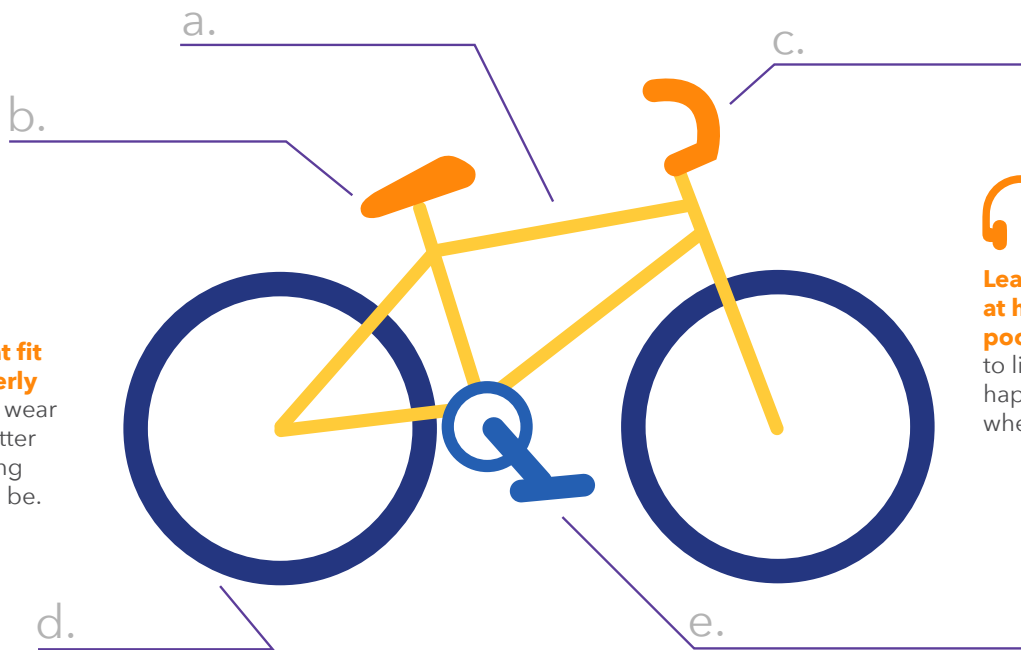

1 Label the Bicycle!

The word box below contains names of different parts of a bicycle. Write the names in the spaces below.

Words

Handlebar Frame Seat Tire Pedal

Bicycle helmets that fit and are worn properly save brains! Always wear your helmet - no matter how short or how long your bicycle ride will be.

Leave your headphones at home or in your pocket. It's better to listen to all that's happening around you when you ride your bike.

2 Word Finder!

Can you find the words?
Circle the word when you find it.

Answer Key

1

a. Frame b. Seat c. Handlebar d. Tire e. Pedal

Decorate the Helmet!

Always wear a helmet when riding your bike. Color the helmet to the right!

Haven't used your bicycle in a while? Do the bike check!

- Check the brakes to make sure they work.
- Check your tires. Are they filled with the right amount of air?
- Does your seat stay put? How about your handlebars?
- Check the height. When you sit on your bicycle seat, can your feet easily touch the ground and can you reach your handlebars?

If your bicycle passed the check, you're ready to ride!
